# DISCLAIMER

This whitepaper outlines the motivations, philosophy, tokenomics, technology approach, and roadmap of the SpaceM Token project and its ecosystem. As an informational document, it provides a comprehensive introduction to SpaceM but does not define the current state of the technology or guarantee the success of the outlined development plan. To the extent permitted by law, the SpaceM project rejects any implication that this document constitutes a binding agreement between its producers and consumers. SpaceM is not responsible for any loss or damage resulting from actions taken based on this whitepaper. We reserve the right to modify this document as new information, technological advancements, or economic changes emerge. This is for informational purposes only and does not constitute financial, investment, or legal advice. Cryptocurrency investments carry high risk and volatility.

# INTRODUCTION

Welcome aboard SpaceM—a revolutionary blockchain ecosystem that fuses decentralized gaming and SocialFi on SpaceM.ai, alongside RealFi (tokenized real-world assets), CrowdFi (community-driven crowdfunding), and an Education & Updates pillar.

Built on the high-performance Avalanche blockchain, SpaceM delivers an intuitive, rewarding, and interconnected platform where users engage, create, invest, learn, and earn.

At the heart of SpaceM is the \$SPACEM token, generated by 20,000 exclusive super NFT Nodes. These Nodes unlock passive income, governance, and premium features, while SpaceM.ai blends social interaction with gaming, creating a dynamic hub where communities thrive and players compete. RealFi and CrowdFi add investment and innovation layers, making SpaceM a launchpad for a decentralized Web3 future.

# OUR VISION

SpaceM envisions a decentralized, inclusive digital economy where users control their assets, interactions and opportunities.

We're redefining blockchain gaming and SocialFi, tokenizing real-world assets via RealFi, empowering crowdfunding through CrowdFi and enhancing education with our Education & Updates pillar—all within a sustainable, community-driven ecosystem.

Leveraging Avalanche's fast, scalable and eco-friendly blockchain, SpaceM offers a seamless experience for gamers, social creators, investors, and learners.

Our core values—fairness, inclusivity and economic empowerment—guide us, supported by these pillars:

- **Stable & Scalable Ecosystem:** Robust tokenomics and decentralized governance ensure long-term growth and sustainability.
- **Gaming & SocialFi Fusion:** Play-to-Earn (P2E) gaming and AI-driven social engagement on SpaceM.ai create a connected, rewarding experience.
- **RealFi Revolution:** Tokenized real-estate bridges crypto liquidity with real-world value, offering attractive yields.
- **CrowdFi Empowerment:** Community-backed crowdfunding fuels Web3 ventures, rewarding contributors with stakes or \$SPACEM.
- **Education & Updates:** Empowering users by expanding blockchain literacy and financial knowledge through the Learn-to-Earn academy, rewarding users for acquiring valuable skills and keeping the community informed.
- **Fiat-to-Crypto Made Easy:** A two-click solution connects traditional finance to crypto seamlessly.
- **Smart Tokenomics:** Sustainable token generation and staking incentives drive organic expansion.

SpaceM is a movement toward a fair, innovative and interconnected digital world where everyone thrives.

# PROBLEM & SOLUTION

The blockchain space brims with potential, but challenges like accessibility, user retention, disconnected social and gaming experiences, limited real-world integration, fragmented investment, educational gaps and fiat connectivity hinder adoption.

SpaceM tackles these with a unified approach:

## **Accessibility & Usability:**

Intuitive interfaces and tutorials welcome all users.

## **Engagement & Retention:**

A fused Gaming & SocialFi experience with P2E, community events and NFT trading keeps users active.

## **Connected Social & Gaming:**

SpaceM.ai integrates social interaction with gaming, breaking silos for a holistic ecosystem.

## **Real-World Integration (RealFi):**

Tokenized assets remove barriers to real-estate investment, offering yields.

## **Crowdfunding Access (CrowdFi):**

Community-driven funding empowers innovation with rewards.

## **Educational Gaps:**

Education & Updates delivers Learn-to-Earn courses and a Newsletter.

## **Fiat-to-Crypto Integration:**

A two-click process bridges traditional and digital finance.

SpaceM's solution merges Gaming & SocialFi, RealFi, CrowdFi and Education & Informational pillars into one ecosystem, powered by the multi-functional \$SPACEM token.

By combining user-friendly design, community engagement and blockchain utility, SpaceM eliminates traditional crypto barriers, fostering an inclusive, rewarding and accessible digital economy.

## Why Avalanche?

Avalanche is a high-speed, scalable, and eco-friendly Layer 1 blockchain that powers the SpaceM ecosystem. With its native token AVAX, rapid transaction finality, and EVM compatibility, it supports digital assets, DeFi, and Web3 innovation. The \$SPACEM token leverages Avalanche's efficient framework for payments, staking, and ecosystem applications, using AVAX for low-cost fees and USDC for node payments.

## Why These Pillars?

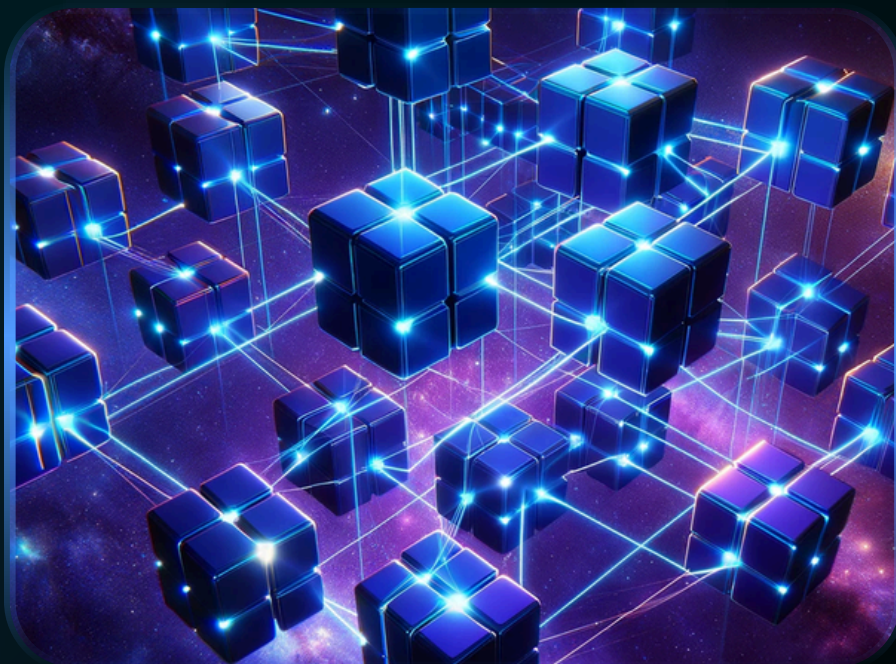

- **IncentiFi, SocialFi, GameFi:** Reward systems, viral content monetization and P2E gaming tap into growing markets, targeting 250,000 users in 24 months.
- **RealFi/RWA:** Tokenized real-estate links crypto to tangible assets.
- **CrowdFi:** Democratizes funding for Web3 projects.
- **SpaceM Academy & Fiat-to-Crypto:** Enhance education and financial accessibility.

# ECOSYSTEM

SpaceM is a multi-dimensional universe where every element connects:

## IncentiFi powered by **NFT Nodes & \$SPACEM Token**

- 20,000 limited-edition **Nodes** generate \$SPACEM, offer daily passive income, staking opportunities, profit sharing via Node/share benefits and future DAO benefits enabling governance. Tradable and visible on-chain
- **\$SPACEM Token:** A robust and scarce tokenomics model that powers gaming, social features, NFT purchases, staking and premiums.

**GameFi (Play-to-Earn):**

- Engage in Play-to-Earn (P2E) gaming on Telegram and SpaceM.ai, where players earn \$SPACEM tokens through achievements and interactive gameplay within the SpaceM Telegram channel.
- Ad-based monetization supports sustainability, with expansion plans underway.
- An advanced P2E game, designed to challenge skilled gamers, is coming soon, offering a deeper, more competitive experience.

**SocialFi (Transform Viral Content into NFTs):**

- SpaceM.ai empowers creators to connect, share and monetize by transforming viral posts into NFTs, sold directly to fans. As engagement—likes, shares, and interactions—grows, NFT value increases, pioneering a new monetization model that eliminates intermediaries and empowers smaller creators. To create NFTs, users need SpaceM Credits, which can be:
  - Purchased with \$SPACEM tokens
  - Earned by engaging with content
  - Gained through mini-games

**Synergy:**

- Integrated leaderboards, events and mini-games bridge gaming and social engagement, rewarding users with credits convertible to \$SPACEM for both playing and creating, fostering a vibrant, interconnected community on SpaceM.ai.

**RealFi/RWA – Real-World Asset Tokenization (TBA)**

- Tokenized real estate projects bridge the gap between crypto liquidity and real-world investments, offering attractive, yield-generating opportunities for crypto holders.
- Fractional investment in properties makes ownership accessible and profitable.

**CrowdFi – Crowdfunding Web3 Innovations (TBA)**

- Community-backed funding for new Web3 projects.
- Backers receive project stakes or \$SPACEM incentives.

**SpaceM Academy – Learn & Earn (Coming in Q1 2026)**

- Learn to navigate the SpaceM ecosystem.
- Master skills for use inside and outside Web3.
- Become a profitable SpaceM user through customized learning paths.
- Users spend \$SPACEM tokens to access courses and unlock earning potential.

**Fiat-to-Crypto Solutions & DeFi – A Seamless Financial Experience**

- A self-sufficient ecosystem, reducing reliance on external platforms.
- Spend profits and manage funds with SpaceM Debit Cards.
- A fully integrated Web3/Web2 financial system.

**Expanded Ecosystem Services**

- Spot trading for \$SPACEM and other assets.
- Mining/treasury solutions for ecosystem sustainability.
- Enhanced AI integration across all pillars.

# TOKENOMICS

The \$SPACEM token, officially named **SpaceM Token** (symbol: **SPACEM**), is the lifeblood of the SpaceM ecosystem, built on the high-performance **Avalanche** blockchain. Designed with a robust and sustainable model, \$SPACEM powers all ecosystem activities—from gaming and social engagement to education and financial solutions.

## Token Overview

- **Token Name:** SpaceM Token
- **Symbol:** SPACEM
- **Blockchain:** Avalanche
- **Starting Price:** \$0.00006
- **Maximum Token Supply:** 50 billion \$SPACEM
- **Supported Crypto:** AVAX, USDC
- **Token Hard Cap:** 3 million USDC

## Node-Driven Distribution

The ecosystem is powered by 20,000 exclusive NFT Nodes, which generate tokens and offer holders passive income, governance rights, and premium features.

- **Token Supply for Nodes:** 27,5 billion \$SPACEM (55% of total supply)
- **Daily Token Distribution:** 15 million \$SPACEM
- **Node Sale Phases:** Distributed through a structured sale process: Private Sale, Pre-Sale 1, Pre-Sale 2, Public Sale A and Public Sale B.
- **Token Sale Method:** Node-generated, ensuring decentralized and fair distribution.

Category	Percent	Tokens	Vesting Schedule	Unlock Details	Wallet Address

Nodes	55%	27.5B	3% TGE, then daily over 5 years	27.5B total, 825M unlocked initially	0x53678bb0b23F4fAde986C45b5Bf1001Bcd0b3cc1

**Team & Advisor Tokens: Escrowed, claimable over 3 years.**

## Staking Rewards

Stake \$SPACEM for attractive APYs (initial 6-month offer):

- 3 months: 10% APY (3% reward)
- 6 months: 20% APY (10% reward)
- 1 year: 30% APY (30% reward)
- 2 years: 50% APY (100% reward)
- + extra BONUS STAKING promotions

Rewards may adjust to maintain tokenomics balance.

# TECHNOLOGY

The SpaceM ecosystem is powered by cutting-edge blockchain technology, leveraging the high-performance Avalanche network and innovative smart contract implementations. Below, we dive into the technical foundations of SPACEM Nodes, the \$SPACEM Token and the Avalanche Blockchain that drive this decentralized universe.

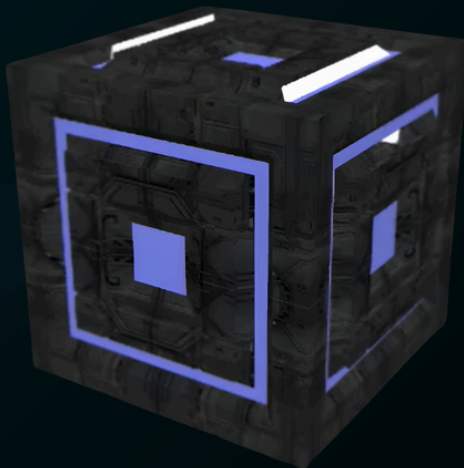

## SPACEM Nodes

The backbone of the SpaceM economy, **SPACEM Nodes**, are unique, limited-edition NFTs deployed on the Avalanche C-chain, payable exclusively in USDC (contract address: `0xB97EF9Ef8734C71904D8002F8b6Bc66Dd9c48a6E`). These nodes are designed to generate the \$SPACEM token, offering holders a stake in the ecosystem's growth.

- **Supply and Sales:** A total of 20,000 individually numbered nodes are available for sale across 20 rounds, with prices increasing progressively to reflect scarcity and demand. Each node is minted as an NFT and added to wallets via a smart contract

(address:

`0x83B205d4612094b44749f9240091d2D9B41DC6D4`) on the Avalanche C-chain (blockchain ID: 43114).

- **Benefits and Utility:** Node holders gain increased importance and rewards, including enhanced staking yields and exclusive gaming perks, incentivizing long-term participation.
- **Transferability and Transparency:** Nodes are fully transferable and tradable, fostering a secondary market, while the complete inventory remains transparent and verifiable on the blockchain at (<https://snowscan.xyz/token/0x83B205d4612094b44749f9240091d2D9B41DC6D4>).
- **Token Generation:** These nodes are the primary mechanism for creating \$SPACEM tokens, distributing 15 million \$SPACEM daily (80% to NODE holders, 10% to Staking pool and 10% to Marketing pool), which fuels the ecosystem's economic activity.

### \$SPACEM Token

The \$SPACEM Token, the ecosystem's native currency, operates on the Avalanche C-chain (blockchain ID: 43114) with a smart contract address of **0x3c780F5cBF94De3EFCec964Af928D08c4508EeBE**. It serves as a multi-utility asset for transactions, staking, gaming, and content monetization across SpaceM.

The token has a **maximum supply of 50 billion \$SPACEM**, launched with a **starting value of \$0.00006** (in USDC). Initially, **7.2% of the supply** (3.6 billion \$SPACEM) was allocated for pre-launch sales, while the **majority (55%, or 27.5 billion \$SPACEM)** is generated by the nodes, ensuring a decentralized and community-driven distribution model. To enhance token scarcity and long-term value, **3.87% of the total supply** (1.935 billion \$SPACEM) from pre-launch has been burned, reducing the effective pre-launch allocation to **3.33%** (1.665 billion \$SPACEM) sold. As a result, the **current available supply** stands at **48.067 billion \$SPACEM**, setting a strong foundation for sustainable growth within the SpaceM ecosystem.

### **Distribution and Vesting:**

Token bonuses for the team and advisors are escrowed and will vest over the next 3 years, promoting long-term commitment. The full supply distribution is transparently tracked on the blockchain.

### **Ecosystem Role:**

\$SPACEM powers in-game rewards, NFT minting via SpaceM Credits, staking incentives, and premium feature access, creating a vibrant, self-sustaining economy.

## Avalanche Blockchain

SpaceM is built on the Avalanche C-Chain, a leading Proof-of-Stake blockchain known for its scalability, speed, and sustainability. This robust infrastructure supports the ecosystem's ambitious goals with the following features:

### Network Overview:

- Avalanche's native token, **AVAX**, ranks among the top 15 cryptocurrencies with an estimated market cap of **\$10 billion**, while the broader ecosystem market cap exceeds **\$140 billion**, placing it 7th after BTC, ETH, BNB, SOL, Optimism and Arbitrum.

### Community and Activity:

- Backed by a global community of **over 1 million involved members**, Avalanche hosts prominent projects like Trader Joe, GMX, BENQI, Pharaoh, Stargate and Aave, each processing **over 20,000** transactions monthly.

### Performance Metrics:

- The network achieves an impressive **4,500 transactions per second (TPS)** across every subnet, with **1-2 second** transaction finality, far surpassing competitors like Ethereum. Real-time status is available at <https://statusavax.network/>, supported by **around 1,500 validators** (<https://snowtrace.io/validators>) and over **25 million unique addresses**, with approximately **120,000 daily active addresses**.

### Sustainability:

- Avalanche's Proof-of-Stake consensus consumes energy equivalent to just **46 U.S. households annually** (per Crypto Carbon Ratings Institute), aligning with SpaceM's commitment to a greener future.

# ROADMAP

SpaceM's journey to redefine the Web3 landscape unfolds through a strategic, multi-phase roadmap, designed to build a robust ecosystem, scale our community, and deliver innovative features. Below is a clear overview of our development milestones, from foundational steps to global expansion, culminating in our ambitious goal of 100 million users by 2030.

## Phase 1 (Q1-Q3 2024):

Lay the groundwork with the NFT Node Presale, deploy the \$SPACEM Token Code and Staking Contract, conduct Pre-Sale 1, secure a Certik Audit for trust and transparency, expand Team Development, and launch Social Media Beta 1.0 to kickstart community engagement.

## Phase 2 (Q4 2024):

Amplify our presence with a Social Media Campaign, host Live Events, introduce the AI Meme Generator, roll out New Branding, and sell the first 2,000 Nodes, marking the initial wave of ecosystem participation.

## Phase 3 (Q1 2025):

Achieve key milestones with the DEX Launch on 21.01.2025, welcome our first 2,000 token holders, initiate Public Node Sale A with 3,000 Nodes sold, launch the Affiliate Ambassador Campaign, debut Education & Updates, release the P2E Pinball Game and TG Bot Games, integrate SpaceM.ai Social Features, and unveil a new Website and Whitepaper in March 2025, setting the stage for broader adoption.

## Phase 4 (Q2 2025):

Expand accessibility with the first CEX listing, grow to 10,000 token holders, activate Fiat-Crypto Solutions, launch the SpaceM DAO for decentralized governance & ecosystem profit share for Node holders, and achieve a 40+ million USD market cap, solidifying SpaceM's position as a rising Web3 leader.

## Phase 5 (Q3-Q4 2025):

Accelerate growth with 3 new CEX listings, reach 50,000 token holders, hit a 300+ million USD market cap, enhance engagement with Social Media 2.0, expand P2E & SocialFi, introduce the AI NFT Generator, conduct Public Sale B, host Global Events, launch a RealFi Pilot with the first RWA tokenization project, activate 3 Apps, and sell all remaining Nodes, completing the node distribution.

## Phase 6 (2026 and Beyond):

Drive innovation with Expanded RealFi Projects, launch CrowdFi Ventures, integrate advanced AI features, list on 10 different CEXs, grow to 100,000 token holders, and begin building our own Layer 2 SPACEM Platform, specifically focused on RWA and RealFi tokenization projects, set to be active by the end of 2026. This phase sets the foundation for our ultimate goal of 100 million users by 2030, cementing SpaceM as a global Web3 powerhouse.

# GO-TO-MARKET STRATEGY

SpaceM's go-to-market strategy is a multi-faceted blueprint designed to drive explosive growth, build a passionate community and establish SpaceM as a leader in the Web3 space. By combining a robust affiliate program with strategic marketing, social engagement and crypto-specific tactics, we're poised to attract both crypto enthusiasts and newcomers, scaling our ecosystem globally.

## **Affiliate Program:** Fueling Community-Driven Growth

At the core of our strategy is a powerful affiliate program that rewards community members for driving user growth. Affiliates are incentivized through:

- **Bonuses:** Earn immediate rewards for each successful referral, encouraging active promotion & gain exclusive perks, fostering long-term advocacy.
- **Pools:** Contribute to shared reward pools, amplifying incentives for collective growth.
- **Rewards:** Unlock \$SPACEM tokens, NFTs or SpaceM Credits, creating tangible value for participants.

This program leverages community influence to expand our reach, aligning our user base with SpaceM's vision of a decentralized, rewarding ecosystem.

## Multi-Faceted Growth Approach

Beyond affiliates, SpaceM employs a comprehensive strategy to maximize visibility and adoption:

- **Brand & Marketing:** Position SpaceM as a trailblazer in blockchain gaming and SocialFi through targeted ads, influencer partnerships and strategic content, building awareness and credibility.
- **Social Media Engagement:** Leverage platforms like Twitter, Discord, Telegram and SpaceM.ai to share updates, host AMAs and run interactive campaigns, fostering a vibrant, engaged community.
- **Community Programs:** Empower users through affiliate and referral initiatives, incentivizing them to promote SpaceM within their networks and amplify organic growth.
- **Crypto-Specific Tactics:** Drive adoption with exchange listings, DeFi integrations and cross-promotions within the Avalanche network, enhancing visibility and user stickiness.
- **Influencer Collaborations:** Partner with crypto influencers to create tutorials, reviews and content, boosting visibility and educating users about SpaceM's ecosystem.

Together, these strategies create a synergistic growth engine, ensuring SpaceM reaches and resonates with a global audience while cultivating a strong, aligned community.

# GROWTH VISION

SpaceM is poised to scale to 100 million users by 2030, harnessing the power of SocialFi, GameFi, IncentiFi, RealFi, and CrowdFi to create a thriving, interconnected community.

Our mission is to build a decentralized, community-driven digital ecosystem where users maintain full control over their assets while immersing themselves in an engaging, rewarding experience. By driving adoption through innovative rewards, global accessibility and seamless expansion, SpaceM bridges gaming, AI and blockchain technology in a groundbreaking way, shaping a future where every user can flourish.

# MEET OUR TEAM

# FINAL THOUGHTS

SpaceM is your portal to an exhilarating decentralized universe, where the dynamic fusion of GameFi & SocialFi on SpaceM.ai, the rewarding mechanics of IncentiFi, the groundbreaking RealFi/RWA asset tokenization, the community-driven power of CrowdFi, the educational empowerment of SpaceM Academy and the seamless Fiat-to-Crypto Solutions & DeFi converge to redefine possibilities. Join us on this cosmic journey to explore a fair, innovative and inclusive Web3 future—together, we'll ignite the stars and soar to new heights!
